Intermediate Bulk Container

The IBC is a transport container for materials in the chemical and related industries that require both safe and economical containers.

Sizes: 275, 330 Gallons

**Inner Container:** High molecular weight, high density polyethylene (HDPE) extrusion blow molded, shaped to ensure complete discharge of contents

**Outer Container:** Rigid welded, galvanized tubular steel grid, with a large identification plate and return ticket pouch

**Molded Bottom Shell:** Pressed galvanized steel base shaped to support the inner container and assist total drainage.

**Benefits of IBC’s over drums:**
- Reduced filling, sealing and labeling times
- Simplified transport logistics and stacking
- Efficient discharge
- Maximum use of storage space
- Maximum use of shipping space
- Container reconditioning
- Multi-trip use of containers
