

Macro Bin

26 Solid

The Macro 26 Solid bins are designed with a square footprint to hold up to 1,300 pounds. With double-wall corner and center posts, and two full-length feet with positive interlocking feature, these bins are durable, yet still lightweight and easy to handle.

Features

- *Rounded corners and smooth surfaces mean fewer scuffs, abrasions, and cuts on your product. Risk of contamination is reduced because there are fewer places for unwanted particles to hide*
- *FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins*
- *Injection-molded, high impact resistant plastic stands up to heavy day-to-day use. The one piece design eliminates the problem of product getting trapped between the side walls and base*
- *Nonporous surfaces won't absorb water or dehydrate your product like wood bins, and they provide a constant tare weight throughout their use*
- *Easy to sanitize MacroBins keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items*
- *Lightweight construction reduces shipping costs and makes MacroBins easier to move; the direct load corner posts and interlocking foot design make them safer to stack — up to 10 high*
