

ShuttleBin

330

The ShuttleBin 330 is easy to set-up, use for displays, knock-down, and return. The optional drop-down doors allow for easy access on the retail floor, then the easy-to-fold side walls allow the ShuttleBin to collapse to a height of 12.1 inches. This compact-folding bin is the single solution for retail transport, storage, and display.

Solid or ventalized options available

Optional drop down doors

Features

- Impact-grade plastic lasts longer, standing up to heavy day-to-day use, season after season
- FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins
- **For ventalized option:** Hundreds of ventilation slots reduce heat absorption and help your products stay cool. They also provide improved air flow on the retail floor
- Lightweight design (only 110 pounds with two drop-down doors) makes handling easy and reduces shipping costs
- Nonporous surfaces won't absorb water or dehydrate your product like wood bins, and they provide a constant tare weight throughout their use
- Easy-to-sanitize, smooth surfaces keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items
