The HD Stacker 60x48 pallet is a one-of-a-kind plastic pallet designed for durability and long-term use. Originally designed for the automotive industry, this high-impact resistant, injection-molded pallet is great for reusable distribution applications.

Contact a TranPak sales representative today to learn more.

<sup>(1)</sup>Rated racking capacity is for standard edge racking where pallet is only supported by two points at the edges. Racking capacity for other types of racks will be different. Nominal specifications subject to change without notice. Product performance characteristics vary with application.

<sup>(2)</sup># In A Stack: LTL (Less Than Truckload) = is based upon 96" height of standard LTL carriers. FTL (Full Truckload) = is based upon height of standard 53' trailers.
