The Macro T-Bin with solid side panels and floor, double wall construction and a standard pallet footprint is ideal for food, beverage, and industrial applications.

Features and Benefits

Injection-molded, high impact resistant plastic stands up to heavy day-to-day use. The one-piece design eliminates the problem of product getting trapped between the side walls and base.

FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins

Lightweight construction reduces shipping costs and makes MacroBins easier to move. This large capacity bin only weighs 127 pounds.
