

Macro 24FV

Plastic Agricultural Bin

SPECIFICATIONS	
Item #	24FV
Exterior Dimensions	47" x 47" x 28.1"
Interior Dimensions	44" x 44" x 22.2"
Load Capacity (ft³)	23.56 ft³
Load Capacity (gallons)	176 gallons
Load Capacity (liters)	667 liters
Load Capacity (lbs)	1,200 lbs
Weight	89.5 lbs
Truckload Quantity (FTL ⁽¹⁾ / Double Flat ⁽²⁾)	78 / 112

Dimensions assume tolerance of 1/4". Volume capacities assume tolerance of 5% and tare weights assume a tolerance of 4% unless noted otherwise. Ambient temperature approximately equal to 75°F.

⁽¹⁾ FTL = Full Truckload - based on 53' standard trailer.

⁽²⁾ Double Flat = Double Flatbed - based on standard 56' long double flatbed trailer.

The Macro 24 Vented bins are made with nonporous, injection-molded plastic which reduces the risk of product damage from pests, bacteria, or pathogens. The smooth, durable surfaces are easy to clean and can stand up to heavy day-to-day use, season after season.

Features and Benefits

Rounded corners and smooth surfaces mean fewer scuffs, abrasions, and cuts on your tender fruits. Risk of contamination is reduced because there are fewer places for unwanted particles to hide.

Multiple ventilation slots in the sides and base facilitate the use of thermofogging, reduce heat absorption, and help your products cool down quicker in the hydrocooler.

FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins

Lightweight construction reduces shipping costs and makes MacroBins easier to move; the direct load corner posts and interlocking foot design make them safer to stack — up to 9 high.
