The ShuttleBin 330 is easy to set-up, use for displays, knock-down, and return. The easy-to-fold side walls allow the ShuttleBin to collapse to a height of 12.1 inches. This compact-folding bin is the single solution for retail transport, storage, and display.

Features and Benefits

Impact-grade plastic lasts longer, standing up to heavy day-to-day use, season after season.

FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins.

Hundreds of ventilation slots reduce heat absorption and help your products stay cool. They also provide improved air flow on the retail floor.

Lightweight design (only 110 pounds with two drop-down doors) makes handling easy and reduces shipping costs.

Nonporous surfaces won't absorb water or dehydrate your product like wood bins, and they provide a constant tare weight throughout their use.

Easy-to-sanitize, smooth surfaces keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items.
